## LAWYERS CLASH IN MINING CASE

DEFENDANTS IN PITTSBURG-SILVER PEAK CASE STAVE OFF ACCOUNTING

RENO, Sept. 21.—Another clash between the opposing forces which are battling in the courts over the question of the ownership of the Pittsburg-Silver Peak properties near Blair, took place yesterday in the district court when the attorneys for the plaintiff, Gamble, in the case of Gamble against Hanchett and others asked for an accounting under the judgment recently obtained.

The suit has been in the courts over twelve years and during that time has been in two counties in the district court and once in the federal court. It the last hearing it was decided by Judge Pike in favor of Gamble, who contended for his rights under an option which was violated years ago. The judgment gave the parties a right to have an accounting made of the condition of the mining property with a view to determining the amount of restitution and damages to be awarded.

Yesterday Attorneys J. W. Dorsey and R. M. F. Soto of San Francisco appeared before Judge Pike to ask the court to fix time for taking testimony on an accounting under the judgment recently obtained. The other side, that of the Hanchetts and Blairs, was represented by United States Attorney Sam Platt and the members of the law firm of Bartlett, Thatcher and Gibbons, and a battle royal was had. Judge Pike finally decided to do

nothing to fix the time for a hearing on the accounting until after the hearing on a motion for a new trial, which the defendants have made. That hearing was set for November 8.

The case involves mining property running up into the millions and accounts for the stubbornness with which it has been fought.

## SENATOR ODDIE STRIKES ORE IN LUCKYBOY LEASE

The Hawthorne-Lucky Boy Post of Saturday has the following good news:

"The district was astir yesterday when the news leaked out that new strikes had been made on a number of properties at Luckyboy, seven miles west of this city. On the Oddie Mining and Development property, a vein was encountered in the shaft at a depth of 275 feet, bespattered with the much sought for metal. Indications are that the vein will make a big ore body. In the raise on the 125 level of the Brodigan, 12 inches of the "pure stuff" was blasted into, and today the miners are sacking the valuable ore. On the 50 foot level of the Collins lease, a vein of high grade ore, 12 inches wide, was broken into from the hanging wall. The company had driven past the ore shoot, thinking it was further ahead. In the bottom of the O'Keefe lease shaft, which is 200 feet deep, six stringers of excellent ore are in evidence, and appear to be dipping into one big vein. The

bottom of the Alamo shaft, which is near the 450 mark, shows 42 inches of ore which constitute solid metal. On the 300 foot level a stope was started this week from the west drift on a vein of ore 12 inches wide that will run in picture values.

"The new finds of yesterday mean a great deal to the community as they will cause positions for extra miners.

"Adams and Miller stated that in all probability they would start regular shipments forward about the 1st."

## HOTEL ARRIVALS

### MANHATTAN

H. G. Kamiske, C. M. Miller, Virginia City; Mike Kakure, Needles; Sam Wilson, James Waldo, Millers; H. J. Baring, Los Angeles; Harry Griswald, Rhyolite; Mrs. B. B. Carmichael, Los Angeles; T. L. Blonger, Denver; Frank Blazier, Pueblo; F. L. Blouse, Tombstone, Ariz.

### MIZPAH

## STOCK MARKET

After the sensational advance made by the stock market during Monday's session of the San Francisco stock exchange, the market settled down yesterday on the day's trading and several southern Nevada securities dropped a few points. Both Montana and MacNamara fell away a point.

Goldfield Consolidated fell back 17 1/2 cents. Florence dropped 10 cents and Combination Fraction declined 5 points. The remaining stocks were unaffected.

The following quotations are furnished by Broker H. E. Epstine:
